

2012 ISA Water/Wastewater and Automatic Controls Symposium

Aug 7-9, 2012 (Tues-Thurs)

Holiday Inn Castle Resort, Orlando, Florida, USA

www.isawwsymposium.com

This 3-day symposium, sponsored by the ISA Water/Wastewater Industries Division, is focused on the water and wastewater sector. It features: 2 full days of presentations, a tour of a local water/wastewater facility, a general reception, networking events, a poster session, and a supplier showcase. The first day starts with symposium registration, a plant tour, and an optional full-day short course of Automation & SCADA System Security. The second day kicks off with a keynote speaker, followed by presentations on general water/wastewater topics such as instrumentation, system integration, automation, plant case studies, new technologies and process optimization/automation. The third day is focussed on leveraging automation technology with topics including SCADA, HMI, Human Factors, and Alarm Management. The Tues-Thurs timeslot has been picked so families can easily take their kids to Walt Disney World, either during or before/after the symposium.

The [Call for Abstracts](#) is now available on the symposium website. Abstracts are due by Mar 7, 2012. Authors have the option of presenting their work as a 35-minute power point presentation (no paper), a 6-12 page paper accompanied by a 35-minute power point presentation, or a 3'x4' large-format poster. First draft submissions are due on April 25, 2012.

Online registration is now available at www.isawwsymposium.com. Registration for the 3-day symposium is \$300 for ISA members and \$400 for non-members. Students can register for \$110. Rooms in the conference hotel are \$79/night. Attendees typically range from plant operators, maintenance, and technical personnel to engineers, programmers and system integrators.

For more information about the 2012 ISA WWAC Symposium see www.isawwsymposium.com or contact the general symposium chair Graham Nasby at graham.nasby@eramosa.com or the program committee chair Joe Provenzano at provenzano2@comcast.net.

About the WWAC Symposium

Sponsored by the Water and Wastewater Division of ISA, the Water/Wastewater and Automatic Controls Symposium (WWAC Symposium) helps professionals in the water and wastewater industry understand how automatic control applications affect processing and distribution of water treatment and provide an outstanding opportunity to gain valuable technical information and training. It is "niche symposium" that offers a friendly atmosphere that caters specifically to the needs of automation professionals, technicians and engineers in the water/wastewater sector. Attendees range from plant operations, maintenance and engineering personnel to system integrators, design engineers and facility owners. The event has a traditional attendance of 75-100 attendees that come from across USA, as well as Canada and Mexico. The 2012 WWAC Symposium is being held in Orlando, Florida, USA on Aug 7-9, 2012. More information can be found at www.isawwsymposium.com

About the ISA

Founded in 1945, the International Society of Automation is a leading, global, nonprofit organization that is setting the standard for automation by helping over 30,000 worldwide members and other professionals solve difficult technical problems, while enhancing their leadership and personal career capabilities. Based in Research Triangle Park, North Carolina, ISA develops standards; certifies industry professionals; provides education and training; publishes books and technical articles; and hosts conferences and exhibitions for automation professionals.
