Opening Panel: OT Cyber Security as a Business Enabler

Is OT Cybersecurity a business enabler? What is the definition of enabler in today's business landscape?
Does the C Suite see this as an opportunity to drive efficiency?
How can we help them understand?
Is the rail sector making the needed investments?
Is cyber security a driving factor in rail organisations? What are the business drivers?
Are we harmonising investments?

Rafail Portnoy

CTO
Metropolitan Transportation Authority (NY)

Graham Nasby

Senior Manager of OT Security Architecture
CN Rail

Dr. Julius Smith

Vice President & Chief Information Officer
Dallas Area Rapid Transit (DART)
