| 09:00 | Panel Discussion: How Do We Get The Investment Needed to Ensure Our Assets Remain Secure? <p>Although Canadian businesses were reported to have spent over \$10 billion on cyber security in 2022, significant gaps remain in the cyber security of many organization's OT Systems. Nevertheless, for many in OT Environments, a lack of funding has remained a significant business and technological challenge in ensuring the safety of our critical infrastructure. This session will discuss:</p> <ul style="list-style-type: none">How can we best convince our organization to invest in the security needed to protect our operations?What impact do current and upcoming regulations have in how we invest in cyber security programs?What barriers remain to ensure investment? And how can we overcome them?How do you deal with getting the funding to reduce risk through attack surface management?How do investment priorities differ by organisation and maturity?What are the challenges with getting cyber insurance? And is this a necessity to protect our assets? <p>Moderator: Graham Nasby, Senior Manager – OT Security Architecture, CN</p> <ul style="list-style-type: none">Dr. Kayode Alawonde, Principal Cybersecurity, BHPCraig Coughlan, Director of Cybersecurity, Suncor EnergySal Morlando, Senior Director of Products, OPSWATShivan Mandalam, Director of Products, IOT, CrowdStrike |
